EXPERIENCE

Lead Frontend Developer

2022 - 2026

Ceetiz, Paris

Led the migration of legacy e-commerce applications to Vue.js, Nuxt and Vite, modernizing the frontend architecture and improving performance, SEO and maintainability. Managed Kubernetes/Pulumi deployments and provided technical guidance to the frontend team.

Full-Stack Developer

2019 - 2022

Alltricks, Montigny-le-bretonneux

Developed and maintained customer-facing e-commerce features using PHP, Vue.js and React. Worked across frontend and backend systems on a high-traffic retail platform. Contributed to technical modernization and platform reliability.

PHP Developer

2017 - 2019

Dalenys, Levallois-Perret

Built and maintained APIs while contributing to the migration of legacy systems to a modern architecture.

EDUCATION

Web Development Bootcamp

2017

Ironhack, Paris

Intensive training in full-stack web development focused on building and deploying web applications through complete projects in a collaborative environment.

Bac SEN (Electronics & Digital Systems)

2013

Claude Chappe, Nanterre

Technical diploma focused on computer systems and networks, with practical training in IT maintenance, troubleshooting, and basic system administration.
